

WHO WE ARE:

Established in 1984, PE Metalworks, Inc. is a leading, end-to-end, industrial fabrication company and contract manufacturer.

As part of your team, we are committed to helping you make a difference by leveraging a consultative approach, our top-notch team, and focus on quality. We believe in providing unmatched products and services to our customers, helping them keep their promise to theirs.

Industries Served:

- Automation
- Food
- Rail
- Paper
- Marine
- Enclosures
- Medical
- Packaging
- Data Centers
- Signs
- UV Photonics
- Airports

Registrations & Qualifications:

- DUNS: 022502066
- UEI: RK2WZFHQB195
- CAGE: 9W7W0
- NAICS:
 - ▶ 332300 – Sheet Metal Fabrication
 - ▶ 541430 – Graphic Design
 - ▶ 333248 – Additive Manufacturing

CAPABILITY STATEMENT

PE Metalworks acts as an extension of your team providing quality, value-added engineering for manufacturability, end-to-end fabrication, welding, graphics, finishing services, and mechanical assemblies.

CERTIFICATIONS & COMPETENCIES

Company Certifications

- ISO 9001:2015
- UL Certified facility for building electrical panels (UL 508A)
- UL Certified facility for enclosures (Type 1,2,3,4,and 4X)

Operator Certifications

- Six Sigma, Lean
- AWS Certified Welders
- Amada Press Brake
- SolidWorks and AutoCAD
- Adobe Illustrator

EXPERTISE

We support a wide range of projects, from easy-to-complex and low- to-high volume. Some specialties include:

- Certified custom enclosures (UL, NEMA, etc.) for indoor/outdoor use
- Industrial frames, shelving, cabinets, and server racks (new build, modification, or refurbishment/repainting)
- Complete mechanical assembly solutions
- Sheet metal design and fabrication solutions using steel, stainless steel, and aluminum
- Additive manufacturing, 3D printing (low and high volume)
- Industrial graphics (signs, labels, Lexan, Metal Photo, etc.)
- Finishing (powder coating, blasting, passivation, etc.)
- Engineering design analysis (FMEA, Flow, etc.)
